

FUNDUSZE MIĘDZYNARODOWE – Informacja nt. konkursów planowanych do uruchomienia w 2016 r.

Program	Działanie	Nabór	Odsyłacz do konkursu / programu	Zakres objęty działaniem / ewentualne uwagi	Instytucja
HORIZON	Priorytet 1: DOSKONAŁA BAZA NAUKOWA - Europejska Rada ds. Badań Naukowych (ERC)	Opening: 22 Oct 2015 Deadlines: 26 May 2016, 4 Oct 2016	http://www.kpk.gov.pl/wp-content/uploads/2015/08/Work_Programme_2016.pdf	ERC-2016-PoC Proof of Concept	KE
MF EOG/NMF	PL07 "Poprawa i lepsze dostosowanie ochrony zdrowia do trendów demograficzno-epidemiologicznych" Funduszu Współpracy Dwustronnej	15 I - 30 VI 2016	http://www.fbr.zdrowie.gov.pl/fbr_zdrowie/index.php?page=v-nabor-fwd-pl07	Celem Funduszu jest rozwój partnerstw oraz ułatwienie tworzenia sieci, wymiany, dzielenia się i przekazywania wiedzy, technologii, doświadczeń i najlepszych praktyk między beneficjentami i podmiotami z Państw-Darczyńców (Norwegia, Islandia, Lichtenstein) oraz organizacjami międzynarodowymi. Działania podejmowane w ramach Funduszu odnoszą się do celu programu PL07, którym jest poprawa zdrowia publicznego i ograniczanie społecznych nierówności w zdrowiu.	MZ
MF EOG/NMF	PL13 "Ograniczanie społecznych nierówności w zdrowiu" Funduszu Współpracy Dwustronnej	15 I - 30 VI 2016	http://www.fbr.zdrowie.gov.pl/fbr_zdrowie/index.php?page=iv-nabor-fwd-pl13	Celem Funduszu jest rozwój partnerstw oraz ułatwienie tworzenia sieci, wymiany, dzielenia się i przekazywania wiedzy, technologii, doświadczeń i najlepszych praktyk między beneficjentami i podmiotami z Norwegii. Działania podejmowane w ramach Funduszu odnoszą się do celu programu PL13, którym jest przyczynienie się do poprawy stanu zdrowia społeczeństwa polskiego poprzez ograniczenie nierówności w zdrowiu wywołanych czynnikami społecznymi. Całkowita alokacja środków dostępnych z FWD na poziomie programu PL13 w ramach III naboru (środki z funduszy norweskich oraz z budżetu państwa) to 170 000 EUR tj. = 720 120 PLN. Poziom dofinansowania dla wszystkich beneficjentów – 100% kosztów kwalifikowalnych projektu. Maksymalna kwota dofinansowania w projekcie wynosi 46 500 EUR tj. 196 974 PLN	MZ
HORIZON	Priorytet 1: DOSKONAŁA BAZA NAUKOWA - przyszłe i powstające technologie (FET)	Opening: 1 Mar 2016 Deadline: 29 Sep 2016, 27 Sep 2017	http://ec.europa.eu/research/participations/data/ref/h2020/wp/2016_2017/mai/n/h2020-wp1617-fet_en.pdf	Novel ideas for radically new technologies FETOPEN-04-2016-2017 (CSA) FET Innovation Launchpad. HORIZON	Priorytet 1: DOSKONAŁA BAZA NAUKOWA - przyszłe i powstające technologie (FET)	Opening: 20 Sep 2016 Deadline: 17 Jan 2017	http://ec.europa.eu/research/participations/data/ref/h2020/wp/2016_2017/mai n/h2020-wp1617-fet_en.pdf	Novel ideas for radically new technologies FETOPEN-03-2017 (CSA) Open Coordination and Support Actions The challenge is to make Europe the best place in the world for collaborative research and innovation on future and emerging technologies that will renew the basis for future European competitiveness and growth, and that will make a difference for society in the decades to come. Scope: Proposals should address one of the following topics: a. FET Futures - identifying strategy options, challenges and opportunities to stimulate and organise interdisciplinary research and innovation towards new and visionary technologies of any kind. b. FET Exchange - actions for structuring and strengthening an emerging FET-relevant science and technology research and innovation topic and the interdisciplinary communities involved in this topic. This may include, for example, research roadmapping, stimulating (formal and informal) learning and exchange, expanding the range of disciplines	KE
HORIZON	Priorytet 1: DOSKONAŁA BAZA NAUKOWA - przyszłe i powstające technologie (FET)	Opening: 20 Sep 2016 Deadline: 24 Jan 2017	http://ec.europa.eu/research/participations/data/ref/h2020/wp/2016_2017/mai n/h2020-wp1617-fet_en.pdf	Boosting emerging technologies FETPROACT-02-2017 (ERA-NET-Cofund). To support the maturation of novel research topics and structuration of the corresponding communities in the FET domain, in complementarity and synergy with the FET actions directly funded by the Commission, and while fostering cross-fertilisation and synergies between the supported topics and communities. This reflects that the participating funding organisations share the objectives of the FET programme and would amplify its funding and activities through this ERA-NET. The overarching goal is to enhance the construction of the European Research Area in the FET domain, by sharing a common vision of the various efforts in Europe in this domain and fostering cooperation towards the coordinated development of these technologies.	KE

Opis priorytetów HORIZON

Priorytet 3: WYZWANIA SPOŁECZNE - ZDROWIE

Its main policy objectives are to improve health and well-being outcomes, to promote healthy and active ageing, to promote market growth, job creation, and the EU as a global leader in the health area. The challenges to this goal derive from the ageing of European population and lifestyle patterns, which, if not actively managed through a life-course approach, will increase the burden of chronic diseases on individuals, on existing health and care systems and on society. This will also result in increase of public expenditure coupled with labour force and productivity losses.

The programme will implement several research priorities: personalised medicine, rare diseases, human bio-monitoring, mental health, comparative effectiveness research, advanced technologies, e/m-health, robotics, patient empowerment, active and healthy ageing, data security, big data, valorisation, anti-microbial resistance, infectious diseases including vaccines, maternal and child health and the silver economy.

RIA - Działania Badawcze

Mogą obejmować badania podstawowe i stosowane, rozwijanie technologii, testowanie i walidację na prototypach w laboratorium lub otoczeniu symulowanym (na małą skalę).

IA - Działania Innowacyjne

Mogą obejmować przygotowywanie prototypów, testowanie, demonstrację, projekty pilotażowe, walidację produktów na dużą skalę, powielanie rynkowe itd.

CSA - Działania koordynacyjne i wspierające

Standaryzacja, upowszechnianie, koordynacja, tworzenie sieci kontaktów itd.

PPI - Zamówienia Publiczne na Innowacyjne Rozwiązania

Priorytet 1: DOSKONAŁA BAZA NAUKOWA - Europejska Rada ds. Badań Naukowych (ERC)

Scientific excellence is the sole criterion on the basis of which ERC frontier research grants are awarded. Applications can be made in any field of research. Independent researchers of any age and career stage can apply for attractive long-term funding.

The ERC puts particular emphasis on the frontiers of science, scholarship and engineering. In particular, it encourages proposals of an interdisciplinary nature which cross the boundaries between different fields of research, pioneering proposals addressing new and emerging fields of research or proposals introducing unconventional, innovative approaches and scientific inventions.

Priorytet 1: DOSKONAŁA BAZA NAUKOWA - przyszłe i powstające technologie (FET)

FET focuses on research beyond what is known, accepted or widely adopted and supports novel and visionary thinking to open promising paths towards radically new technological possibilities. In particular, FET funds interdisciplinary collaboration that seek genuine cross-fertilisation and deep synergies between the broadest range of advanced sciences (including the life sciences, social sciences and humanities) and cutting-edge engineering disciplines.

FET has three main lines of activity:

- FET Open supports the early-stages of the science and technology research and innovation around new ideas towards radically new future technologies. It also funds coordination and support activities for such high-risk forward looking research to prosper in Europe.

- FET Proactive addresses promising directions for research on future technologies in order to build up a European critical mass of knowledge and excellence around them.

- FET Flagships are science-driven, large-scale, multidisciplinary research initiatives oriented towards a unifying goal, aiming at transformational impacts with substantial benefits for European competitiveness and for society.

Priorytet 1: DOSKONAŁA BAZA NAUKOWA - europejska infrastruktura badawcza, w tym e-infrastruktury

The EU framework programme for Research and Innovation, Horizon 2020, gives high importance to promoting world-class research infrastructures, in a fair, transparent and open way facilitating researcher's access to the infrastructures they need, to further developing and deploying e-infrastructures, and fostering the innovation potential of research infrastructures with a focus on instrumentation and on reinforcing international cooperation with strategic third country partners

Priorytet 4 UPOWSZECHNIANIE DOSKONAŁOŚCI i ZAPEWNIENIE SZERSZEGO UCZESTNICTWA

Utworzenie nowych Centrów Doskonałości w państwach mniej rozwiniętych w zakresie R&I z wiodącymi instytucjami badawczymi w Europie poprzez mechanizm Teamingu.
